Welcome to the 12th World Congress of the RSAI

The 12th Regional Science World Congress welcomes you to Goa, in India, a coastal location with breathtaking landscapes sculpted by the Konkan Coast and the Western Ghats.

On behalf of the Regional Science Association International and the Regional Science Association of India, we extend our warm greetings and cordially invite you to participate in the 12th Regional Science World Congress from May 29 to June 01, 2018, at Goa.

The conference is open to regional scientists, practitioners and researchers in the field of regional science. The Congress will include Keynote Lectures, Scientific Sessions, Poster Sessions, Workshops and Themed Sessions. Field trips will be organized in and around Goa. The theme of the 12th RSAI World Congress is Spatial Systems: Social Integration, Regional Development and Sustainability. The theme has been chosen to focus upon the development needs of regions as spatial entities, which is the subject matter of spatial science.

We hope to provide an encouraging environment for researchers across the globe, to interact and learn from one another, and create a network that will be attractive and inspiring for young students and scholars. We hope to strengthen the community of regional scientists and achieve a better understanding of our future needs.

We wish you a good Conference!

Themes

Umbrella Theme

Spatial Systems: Social Integration, Regional Development and Sustainability

Across the world, communities are striving to achieve an ecologically and socially secure future. The intricately linked ideas of sustainability and integration are the key to achieving our development goals. As regional scientists, our common pursuit of a sustainable future may be attained with more efficient understanding of the 'region' as a spatial unit. Keeping this objective in mind, the theme of the 2018 Congress highlights the importance of analyzing spatial systems as not just physical space or social space, but shared space. The sub-themes will be aimed at providing a platform for debates and discussions around the key issues of contemporary regional science and carve out the way to future research agenda.

General Themes

RS02 - Cooperation and Development
 RS03 - Environmental Issues
 RS04 - Infrastructure, Transportation and Accessibility
 RS06 - Location of Economic Activity
 RS07 - Methods in Regional Science and Urban Economics
 RS08 - Migration and Labor Markets

RS09 - Real Estate and Housing
 RS10 - Regional and Urban Policy and Governance
 RS11 - Regional Finance, Investment or Capital Markets
 RS12 - Rural Development
 RS13 - Social Integration
 RS14 - Spatial Planning
 RS16 - Tourism

SS25. Braille Mapping by NATMO & Its Utility to Visually Impaired People

By Tapati Banerjee, Director, NATMO

Elements of Application and Utilisation:

S. Subbalaxmi (Nethra Vidyalaya) and Mr Taha Haaziq (OSD, Directorate of Social Welfare, Govt, of Goa)

National Atlas and Thematic Mapping Organisation (NATMO) is an organization of applied Geo-Spatial technology and pioneer in Thematic Mapping and Atlas Cartography under Department of Science & Technology (Ministry of Science & Technology), Govt. of India. The Organization publishes different thematic maps and atlases on national, state, district, block level besides many other monograms. NATMO recently has walked ahead to prepare Braille Atlases for visually impaired persons.

Organisational Set Up

National Atlas & Thematic mapping Organisation (NATMO) since its inception (1956) located at Kolkata. With a passage of time it grew into a highest ranked organization as one & single largest maps and atlases production unit in Asia where highest number of geographers work under a single roof. It has its own map production unit with latest technology. Besides main printing unit it has a separate printing set up for Braille mapping too.

As an endeavour to disperse practical knowledge of maps to the visually impaired persons, NATMO applied Braille system in thematic mapping to facilitate visually impaired persons, who were left behind the knowledge of geographical features of the country. After continuous efforts and experiment, NATMO has published **Atlas for Visually Impaired (India), Special edition 2017**, in English Braille script. This publication has received a huge response from the users of all over the country. Hon'ble Prime Minister, Shri N.D. Modi conferred **National Award on "S & T Intervention for Physically Challenged"** to NATMO for this publication. Hon'ble Union Minister of Science & Technology and Earth Sciences, Dr. Harshvardhan, officially released this Atlas on 10th February, 2017 in a gathering of about 200 visually impaired students in INSA, New Delhi. Indian National Cartographic Association (INCA) has included **"National Map Quiz for Visually Impaired Students"** as a part of its annual activity.

Receiving such overwhelming response, NATMO has taken up the preparation of Braille Atlases for different states of India in concerned regional languages as well. The Technical Advisory Committee (TAC) of NATMO has advised to prepare Braille maps/atlasses of the SARC countries also in its last meeting.
