

24 - 26 | November 2021 | Madrid

XLVI Reunión de Estudios Regionales

International Conference on Regional Science

Full cities, empty territories

Universidad Autónoma de Madrid

The Madrid Association of Regional Science and the Spanish Association of Regional Science are pleased to invite you to participate in the **XLVI International Conference on Regional Science** (Reunión de Estudios Regionales – RER), which will take place at the Universidad Autónoma de Madrid on **November 24, 25 and 26, 2021**.

After a year with mobility restrictions and confinements, hopefully we are able to meet at the RER. In any case, given the uncertainties that we are experiencing, we have planned a mixed conference, with face-to-face presentations and online participations for those who decide not to travel.

The RER is the main multidisciplinary meeting point of regional science in Spain with great international projection, mainly in Europe and Latin America. It is the main annual event that takes place in Spain related to research, debate and presentation of academic works, on territorial and regional concepts.

In the XLVI edition we will deal intensively with issues related to the theme: **“Full cities, empty territories.”** We will think over the problems that affect unpopulated territories with less productive activity. The agglomeration of population and production in cities and metropolitan regions often leads to the emptying of other territories. This dynamic has demographic, social, economic, political, environmental, and many other consequences. It is not a new phenomenon. What is most exciting is the social interest reached by this problem and the new alternatives that are currently being presented to address it. The celebration in Madrid, the largest urban and metropolitan agglomeration in Spain, surrounded by territories that suffer the relative decline in activity and population, allows a broad vision of the main theme of the conference.

We understand regional science as a point of confluence of multiple approaches. Although it is usual to analyze the questions based on their economic perspective, placing the economy at the center of territorial policy decisions, it is also necessary to introduce other approaches to territorial development such as aspects related to population, geography, sustainability, etc. Issues such as demographic evolution are decisive in a society like ours, which is increasingly aging, and with a lower rate of generational renewal. On the other hand, the depopulation problem, widespread in many of the Spanish regions, has highlighted the need to face the demographic challenge from different perspectives. The need to provide the territories with development opportunities is central to cover the gap between the peripheral spaces that receive less attention and the most central cities, while guaranteeing the differentiating elements of one and the other. The XLVI RER aims to contribute to a broad and constructive debate on regional science. This year, as a novelty, in addition to the article sessions we will have specific sessions for the presentation of posters.

As Organizing Committee, we want to invite you to participate actively in the XLVI International Conference on Regional Science. We meet in Madrid (in person or online) on November 24, 25 and 26, 2021. We also encourage you to enjoy our city within the magnificent provincial environment. We are looking forward to welcoming you.

THEMATIC AREAS

- 1 - Growth, convergence and regional and urban development.
 - 2 - Inequality and poverty of the territories.
 - 3 - Regional competitiveness, efficiency and productivity.
 - 4 - Sustainability, environment and natural resources.
 - 5 - Demographic change, population and migratory movements.
 - 6 - Methods for regional and urban analysis: big data, spatial econometrics and geographic information systems.
 - 7 - Globalization and territory: foreign sector, foreign direct investment and inter-territorial flows.
 - 8 - Location of economic activities, specialization and cluster analysis.
 - 9 - Labor market and territory.
 - 10 - Knowledge economy, creativity and geography of innovation
 - 11 - Entrepreneurship and business dynamics
 - 12 - Territorial planning, urban planning and housing.
 - 13 - Tourism and culture.
 - 14 - Public sector and regional financing
 - 15 - Regional and urban politics and governance.
- S-TC - University-Environment knowledge transfer sessions
S-JI - Young Researchers Sessions: “I have an idea...”

ORGANIZING COMMITTEE

PRESIDENT:

Andrés Maroto, Universidad Autónoma de Madrid
Juan de Lucio, Universidad de Alcalá de Henares

VOCALS:

Carlos Llano, Universidad Autónoma de Madrid
Ernesto Rodríguez, Universidad Autónoma de Madrid
Gisela Di Meglio, Universidad Complutense de Madrid
Inmaculada Álvarez, Universidad Autónoma de Madrid
Javier Barbero, Comisión Europea - Centro Común de Investigación (CCI)
Jorge Díaz-Lanchas, Comisión Europea - Centro Común de Investigación (CCI)
Jorge Gallego, Universidad Complutense de Madrid
José Antonio Camacho, Universidad de Granada
Julián Pérez, Universidad Autónoma de Madrid
Nuria Gallego, Universidad Rey Juan Carlos
Raúl Mínguez, Universidad Nebrija
Vicente Budí Orduña, Universitat Jaume I

SCIENTIFIC COMMITTEE

PRESIDENT:

María José Murgui García, Universitat de València

SECRETARY:

Andrés Maroto Sánchez, Universidad Autónoma de Madrid

VOCALS:

Ana Viñuela Jiménez, REGIOlab – Universidad de Oviedo
André Carrascal Incera, Birmingham University
Blanca De Miguel Molina, Universitat Politècnica de València
Emili Tortosa Ausina, Universitat Jaume I e IVIE
Fabio Sforzi, Università degli Studi di Parma
Fernando López Hernández, Universidad Politécnica de Cartagena
José Antonio Camacho Ballesta, Instituto Universitario de Investigación de Desarrollo Regional – Universidad de Granada
Josep Maria Arauzo Carod, Universitat Rovira i Virgili
Juan José De Lucio Fernández, Universidad de Alcalá
Julia Salom Carrasco, Instituto de Desarrollo Local
María Jesús Ruiz Fuensanta, Universidad de Castilla La Mancha
María Teresa Sanchis Llopis, Universitat de València e Instituto Figuerola de Ciencias Sociales
Paloma Taltavull de la Paz, Universidad de Alicante
Rosina Moreno Serrano, Universitat de Barcelona

IMPORTANT DATES

Congress dates: November 24-26.
Call to abstracts: April 13.
Presentation of abstracts: June 01.
Acceptance of abstracts: June 15.
Presentation of communications: September 22.
Acceptance of communications: October 9.
Ordinary payment: ends on October 16.
